I hereby certified that the above information is true and correct to the best of my knowledge and belief.

_____
Christian Jason V. Cornel

Summary

Passionate Software Engineer with over 2 years of hands-on experience in developing and maintaining both mobile and web applications. Demonstrated ability to collaborate effectively in teams to meet project deadlines and exceed client expectations. Proven track record of quickly adapting to new technologies and learning on the fly. Skilled at writing clean, maintainable code and continuously improving processes for enhanced efficiency and productivity.

Work Experience

SOFTWARE DEVELOPER
FullStack HQ
March 2024 – June 2024

- Transforming complex layout PSDs into pixel-perfect presentation-layer HTML5/CSS3 templates.
- Creating responsive website designs.
- Building websites with WordPress, Illustrator and Fireworks to create images optimized for the web.
- Working under tight deadlines.
- Multitasking on multiple projects at the same time.
- Producing high quality of work with a strong focus on details.

SOFTWARE ENGINEER
Hooli Software
September 2021 – January 2024

- Analyzed user's requirements, software, and code.
- Developed software, create models, simulate, test, package and deploy.
- Performed maintenance and software integrations for existing systems.
- Developed standard operating procedures.
- Kept updated with the prevalent technologies and trends.
- Performed system risk and reliability analysis.
- Participated in meetings with the team, clients and customers.
- Provided training, mentorship and guidance to peers and junior employees and interns.

RE: Letter of recommendation for Mr. Christian Jason Cornel

To whom it may concern,

As the Chief Technology Officer and Vice-President of Engineering of Hooli Software, I am pleased to write this recommendation letter for Mr. Christian Jason Cornel, who worked with us for the last 2 years and 6 months as a Software Engineer.

As a Software Engineer, Christian's duties and responsibilities include but not limited to the following:

- Analyzed user's requirements, software, and code.
- Developed software, create models, simulate, test, package and deploy.
- Performed maintenance and software integrations for existing systems.
- Developed standard operating procedures.
- Kept updated with the prevalent technologies and trends.
- Performed system risk and reliability analysis.
- Participated in meetings with the team, clients and customers.
- Provided training, mentorship and guidance to peers and junior employees and interns.

Christian accomplished all of them exemplarily. During his tenure with us, he proved over and over again that he is hardworking, knowledgeable in the software engineering field, team player, and is adaptable to change, among others.

Christian has also built camaraderie between team members resulting in a good working environment while accomplishing the project they were working on. I have witnessed how

Christian was loved by his colleagues and peers, which proved that he was easy to work with.

I am confident that he will be an invaluable asset to any organization he joins and will make meaningful contributions in his new role. I strongly endorse Christian without reservation and believe that he will exceed all expectations. Our company would not hesitate to rehire Christian if ever given the chance.

If you have any questions or need additional information, you can reach me at the following.

Landline: (044) 931-1095
